Supply Cost per m ²	Acoustic Rating*	Total Weight
\$ 408.08 AUD <small>based on [300+ sqm]</small>	0.961	15.9kg

IMPORTANT PRICING NOTE

Price includes: freight to site within Australia, contact Sculptform direct for advice on shipping outside of Australia. Corner trims, Endcaps, L profiles and all other standard componentry see our website for more information.

Price does not include: any custom corner/edging treatment, flashing, installation, substrates, hangers and TCR for suspended ceilings, fixings for substrate or insulation batts. Pricing is based on the amount of product required (M²) as specified on the pricing panel.

Please note: We have a minimum order of \$15k due to manufacturing costs. The information provided in the Price & Spec Tool is a guideline for your convenience. Every care has been taken to ensure reasonable accuracy however variations may occur. See our Terms of Use for more details.

**Based on professional opinion only. See disclaimer in Price & Spec for full details.*

Happy with your specification? Follow these 3 simple steps below to order.

Step 1.

Calculate your cost. If the product specification and pricing is satisfactory, simply multiply this m² price by the m² of material required for your project.

Step 2.

Once the tender has been approved, email us the final construction drawings to receive a formal **BOQ estimation** which includes all standard trims and componentry.

Step 3.

Review itemised quote and follow the prompts to **place your order**.
